they are actually Subjects of the Ottoman Empire.

19. It is suggested by the Residency that- "if there be no objection, early steps may be taken for the internment of these three persons in charge of the civil authorities pending receipt of a further communication" from them. To intern a person is to compel him to reside within certain limits. Under existing orders every Ottoman subject found in the State is registered and given a certificate of registration with the condition that he should not change his residence without giving at least ten hours' notice and without intimating his new address to the registering officer. Such persons may also be called upon to report themselves periodically, if considered expedient. There is however nothing at present to restrain such a person from leaving the State. It is not clear what is intended by internment in charge of the civil authorities - whether it means anything more than prohibiting the persons

in question from leaving the respective places where they are at present residing. It is a matter for consideration whether the instructions now received from the Residency will have been complied with if the departure of the individuals in question from their present place of residence is prohibited & they are also required to reports themselves to the Registering Officer every day.

20 If, on the other hand, it is intended that these persons should be confined and kept under custody, it seems desirable to make known to the Mahomedan public the reasons (explained in Pl. 390) which have necessitated such measures, in order that the action of Govt. may not be misunderstood.

21. The above points have been mentioned for consideration ~~in order~~ so that the instructions to be communicated to the local Officers may be definite and beyond doubt.

22. The reply due from the Residency to Pl. 463 will perhaps make the matter clear and action on the present communication may, it seems, be deferred till it is received, or the exact instructions of the Residency

Sir,

In continuation of my letter No. 8045 dated the 5th November 1914, I am directed to advise you that information received from the ~~State~~ Secretary of State for India shows that the Turkish authorities are detaining British Consular officers and British subjects, who are posted, or happen to find themselves, within the limits of the Turkish Empire.

2. In these circumstances it is considered essential to detain, for the present, all Turkish subjects, who are actually within the dominions of His Majesty the King, Emperor of India.

3. I am to request that, should occasion arise, the necessary action may be taken in the Mysore State. Natives of Cyprus and Egyptians should not, however, be detained unless they are in the employ of the Turkish Government.

4. I am further to request that,

should any action prove necessary in pursuance of these instructions, an early report may be made to me.

I have the honour to be,
Sir,
Your most obedient servant,
Sd. P. B. Warburton
First Assistant Resident.
